WHY DOES YOUR BUSINESS **NEED** **A WEBSITE?**

BEFORE YOUR CUSTOMER CALLS, THEY SEARCH

In today's market, most customers research a business online before calling, visiting or buying. Word-of-mouth and social media alone are no longer enough — customers expect to find you, verify you and trust you within seconds.

- ✓ **Build credibility and professionalism**
- ✓ **Give customers complete business information instantly**
- ✓ **Showcase your products and services clearly**
- ✓ **Generate direct enquiries through Call, WhatsApp and Email**
- ✓ **Make your business easy to find online**
- ✓ **Provide one official link you can share everywhere — ads, cards, social media**
- ✓ **Create a permanent digital presence for your brand**
- ✓ **Help customers reach you anytime, from anywhere**

DID YOU KNOW?

A large majority of shoppers research a business online before making a buying decision — and most check a website before ever visiting in person.

Consumers consistently rate businesses with a professional website as more credible than those relying on social media alone.

Most small business websites still don't have a clear way for visitors to get in touch — every VIS website is built with Call, WhatsApp, Email and Map actions from day one.
